**Protection of the environment/Conservation tips**

- Always fill the washing machine with a maximum amount of laundry for the relevant programme.
- Wash normally soiled laundry without a pre-wash.
- Instead of Cottons 90 °C, choose the programme Cottons 60 °C with the additional function EcoPerfect. Comparable cleaning result with significantly lower energy consumption.
- Measure the detergent according to the manufacturer’s instructions and water hardness.
- If the laundry is then dried in the tumble dryer, select the spin speed according to the instructions of the dryer manufacturer.

**Intended use**

- for domestic use only,
- for washing machine-washable fabrics and hand-washable wool in detergent solution,
- to be operated with cold drinking water and commercially available detergents and care products which are suitable for use in washing machines.

- Do not leave children unattended near the washing machine.
- The washing machine is not to be used by children or persons not familiar with the operating instructions.
- Keep pets away from the washing machine.

**Programmes**

Detailed overview of programmes → page 7.
Spin speed can be selected individually, irrespective of the selected programme and programme progress.

- **Cottons**
  - Hard-wearing fabrics
- **Prewash**
  - Hard-wearing fabrics, pre-wash at 30 °C
- **Mixed Load**
  - Different types of laundry
- **SuperQuick 15’**
  - Short programme
- **Rinse/® Spin**
  - Laundry washed by hand, Aqua Plus button activated; if only using the spin cycle, deactivate the button
- **Drain**
  - Drain rinsing water for Rinse Hold (without final spin)
- **Wool**
  - Hand/machine-washable wool
- **Delicate/Silk**
  - Delicate washable fabrics
- **Easy-Care**
  - Easy-care fabrics

**Preparation**

Correct installation according to the separate installation instructions.

**Checking the machine**

- Never use a damaged machine.
- Inform customer service.

**Connecting the mains plug**

Make sure your hands are dry. Take hold of the plug only.

**Turning the tap on**

Compartment II: Detergent for the main wash, water softener, bleach, stain remover
Compartment I: Fabric softener, starch

Programme sequence
Childproof lock, washing machine
1 - 24h
Programme end after
1 - 24h

(*depending on the model)
Before washing for the first time
Wash once without any laundry → page 9.

Sorting and loading laundry

Follow the manufacturer’s care information. According to type, colour, soiling and temperature.

Close the washing machine door. Take care not to trap items of laundry between the washing machine door and the rubber seal.

Add detergent and care products

Amount of laundry, soiling, water hardness (ask your water supply company) and manufacturer’s instructions. Pour liquid detergent into the appropriate dispenser and place in the drum.

Dilute viscous fabric softener and fabric conditioner with water. This prevents blockages.

Setting** and adjusting programmes

**If the symbol flashes in the display panel, the childproof lock is active → deactivate, page 5.

Additional functions, the options button and spin speeds → Individual settings, page 5.

All buttons are sensitive and need only to be touched lightly. Press and hold the options and spin speed buttons to run through the setting options automatically.

- Press to select the programme. Can be turned in either direction.
- Press to start/reload.

Removing the washing

Open the washing machine door and remove the washing. If Rinse Hold (without final spin) is active: Turn the programme selector to Drain or select the spin speed. Press Start/Reload.
- Remove any foreign objects - risk of rusting.
- Leave the washing machine door and detergent drawer open so that any residual water can evaporate.

Turning the tap off

Not required for Aqua-Stop models → Refer to installation instructions.

Switching off

Turn the programme selector to Off.

End of programme when ...

... Start/Reload flashes and 0 appears on the display panel.

Interrupting the programme

Programmes at high temperatures:
- Cool washing: Select Rinse/ Spin.
- Press Start/Reload.

Programmes at lower temperatures:
- Rinse/ Spin (deactivate Aqua Plus button) or select Drain.
- Press Start/Reload.

Changing the programme, if ...

... you have selected the wrong programme by mistake:
- Reselect the programme.
- Press Start/Reload. The new programme starts from the beginning.

Reloading laundry, if ... → page 5

... Start/Reload selected and then YES is lit in the display panel. If NO is lit, the washing machine door cannot be opened.
- Press Start/Reload.
**Individual settings**

- **Ready in options button**
  When you select the programme, the relevant programme duration is displayed. You can delay the start of the programme before it begins. The Ready in-time can be set in increments of one hour up to a maximum of 24 hours. Press the Ready in button repeatedly until the required number of hours is displayed (h = hour). Choose Start/Reload. It is not possible to make adjustments once the programme has started.

- **Spin without final spin**
  Before and while the selected programme is running, you can set the spin speed or Rinse Hold (without final spin, laundry soaks in the last rinsing water, display - - -). The effects depend on the programme progress. The maximum selectable spin speed depends on the model and on which programme is currently selected.

- **Additional functions and overview of programmes, see page 7**
  - **SpeedPerfect**
    For washing in a shorter time with a washing outcome comparable to that of the standard programme. Maximum load → Overview of programmes, page 7.
  - **EcoPerfect**
    For saving energy with a washing performance comparable to that of the standard programme.
  - **Reduced Ironing**
    Special spin sequence with subsequent fluffing. More gentle final spin - residual moisture in the laundry slightly increased.
  - **Aqua Ironing**
    Increased spin level and additional rinse cycle, extended washing time. For areas with very soft water or for further enhancing the spin result.

- **Childproof lock and reloading**
  - **Childproof lock/Appliance lock**
    You can lock the washing machine to prevent the functions you have set from being changed inadvertently. ON/OFF. Press and hold the Start/Reload button for approx. 5 seconds after the start/end of the programme.
    Note: The childproof lock can remain activated until you wish to start the next programme, even after switching off the machine. Then you can deactivate the childproof lock before the start of the programme and activate it again as necessary once the programme has started.

  YES
  If you want to add additional items of laundry after the programme has started, choose Start/Reload. The machine checks whether reloading is possible.

  YES is lit: Reloading is possible.
  NO flashes: wait until YES lights up.
  Note: do not open the door until YES is lit.
  NO: It is not possible to reload.
  Note: For safety reasons, the washing machine door remains locked when the water level and/or temperature is high, or during spinning. To continue the programme, press the Start/Reload button.

- **Start/Reload**
  To start the programme or to subsequently load additional laundry, and to activate/deactivate the childproof lock.

**Important information**

**Protecting the laundry and the machine**
- When determining the dosage of all washing powders, additives and cleaning agents, you must follow the manufacturer's instructions.
- Empty pockets.
- Look out for metal items (paperclips, etc.).
- Wash delicates in a laundry bag (tights, curtains, underwired bras).
- Fasten zips, do up any buttons.
- Brush sand out of pockets and collars.
- Remove curtain fittings or place in the laundry bag.

**Laundry with varying degrees of soiling**

- **Wash new items of clothing separately.**
- **Light**
  - Do not pre-wash. If required, choose the additional function SpeedPerfect.
  - Pre-treat any stains as necessary.
- **Intense**
  - Do not load as much laundry.
  - Choose a programme with pre-wash.

**Soaking Load laundry of the same colour**
Pour soaking agent/detergent into compartment II in accordance with the manufacturer's instructions. Turn the programme selector to Cottons 30° C and press Start/Reload. After approx. 10 minutes, press Start/Reload to pause the programme. Once the required soaking time has elapsed, press Start/Reload again to continue the programme, or select a different programme.

**Starching Laundry must not be treated with fabric softener**
Starching is possible in all wash programmes if liquid starch is used. Pour the starch in accordance with the manufacturer's instructions into fabric softener compartment (rinse first if necessary).

**Dyeing/Bleaching**
Dye should only be used in normal household quantities. Salt may damage stainless steel. Always follow the dye manufacturer's instructions! Do not use the washing machine for bleaching clothes!
Overview of programmes → Refer to the table of consumption values on page 8 and notes on page 6.

Additional information:

- As a short programme for coloureds, select the programme E Mixed Load 40 °C with the maximum spin speed.
- Programs without pre-wash and detergent are programmed with pre-wash and detergent, distribute the detergent between compartmental I and II.

Consumption values

- Programme setting for testing and energy labelling in accordance with EU directive 92/75/EEC.
- Programme setting for testing in accordance with valid standard EN60456.
- Note on comparative tests: Try out the test programme by washing the specified load using the maximum spin speed.

Safety instructions

- Read the instruction manual and installation instructions and all other information enclosed with the washing machine and act accordingly.
- Retain the documents for subsequent use.
- Never pull the cable to disconnect the mains plug.
- Never insert/disconnect the mains plug with damp hands.
- Keep packaging, film and packaging parts out of the reach of children.
- Keep deters and care products out of the reach of children.
- Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover / cleaning solvent may lead to an explosion after being loaded into the washing machine.
- Be careful when draining hot detergent solution.
- Do not climb onto the washing machine.
- Do not lean on the open washing machine door.
- Do not reach into the drum if it is still rotating.
- Be careful when opening the detergent drawer while the machine is in operation.
- Programmes with a maximum spin speed, is ideal.
- Suitable for lightly sized laundry.
- Programmes for wool or blended fabrics, e.g. made of silk, satin, synthetic fibres or blended fabrics made of wool or blended fabrics suitable for lightly sized laundry.
- Particularly gentle wash programme to avoid shrinking of laundry fibres or blended fabrics made of wool or blended fabrics suitable for lightly sized laundry.
- Programmes without pre-wash and detergent are programmed with pre-wash and detergent, distribute the detergent between compartmental I and II.
**Care**

*Before washing for the first time*

- Do not load any laundry into the machine. Turn on the tap. Add the following to compartment II:
  - approx. 1 litre water
  - detergent (dosage according to the manufacturer’s instructions for light soiling and the appropriate degree of water hardness)
- Set the programme selector to Easy-Care 60 °C and select Start/Reload. At the end of the programme, turn the programme selector to Off.

*Machine housing, control panel*

- Wipe with a soft, damp cloth.
- Do not use any abrasive cloths, scourers or cleaning agents (stainless steel cleaners).
- Do not clean with a jet of water.

*Cleaning the detergent drawer ...*

- If it contains detergent or fabric softener residues.
  1. Pull out, press insert down, remove draw completely.
  2. To remove the insert: press the insert upwards from below with your finger.
  3. Clean the detergent dispenser tray and insert with water and a brush and dry it.
  4. Attach the insert and engage (connect the cylinder to the guide pin).
  5. Push in the detergent drawer.

*Drum*

- Leave the washing machine door open so that any residual water can evaporate.

*Descaling*

- Ensure there is no laundry in the machine.
- Descale the appliance according to the descaler manufacturer’s instructions. This should not be necessary if the correct dosage of detergent is used.

*Emergency release, e.g. in the event of a power cut*

- The programme continues to run when the power has been restored. However, if the laundry has to be removed, the washing machine door can be opened as follows:

  **Risk of scalding.**

  The detergent solution and laundry may be hot. If possible, leave it to cool down. Do not reach into the drum if it is still rotating. Do not open the washing machine door if water can be seen through the glass.

  1. Turn the programme selector to Off and disconnect the mains plug.
  2. Drain the detergent solution ➔ page 10.
  3. Pull the emergency release downwards with a tool and release.
- Washing machine door can then be opened.

*Information on the display panel*  
**depending on model**

- F: 16: Close the washing machine door properly; laundry may be caught.
- F: 17: Open the tap completely; supply hose kinked or trapped; Clean the filter ➔ page 10. Water pressure too low.
- F: 18: Detergent solution pump blocked; Clean the detergent solution pump ➔ page 10. Drainage hose / waste pipe blocked; Clean the drainage hose at the siphon ➔ page 10.
- F: 23: Water in the base tub; appliance leaking. Call customer services.

*Maintenance*

**Detergent solution pump**

- Turn the programme selector to Off and disconnect the mains plug.
  1. Open and remove the service flap.

*For models with a drainage hose:*

- Remove the drainage hose from the retainer and pull it from the housing. Remove the container.
- Remove the sealing cap, allow the detergent solution to flow out.
- Replace the sealing cap and place the drainage hose in the retainer.

*For models without a drainage hose:*

- Carefully unscrew the pump cover until the detergent solution begins to flow out. When the service flap is full, close the pump cover and empty the service flap. Repeat the above steps until all the detergent solution has completely drained out.
- Carefully unscrew the pump cover (residual water).
- Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).
- Replace the pump cover and screw it tightly.
- Place the service flap back on and close.

To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment II and start the Drain programme.

**Drainage hose at the siphon**

- Turn the programme selector to Off and disconnect the mains plug.
  1. Loosen the hose clamp, carefully remove the drainage hose (residual water).
  2. Clean the drainage hose and siphon connecting piece.
  3. Reattach the drainage hose and secure the connection with the hose clamp.

**Filter in the water supply**

- Risk of electric shock!

  Do not immerse the HydroSafe safety device in water (contains an electric valve).

- Reduce the water pressure in the supply hose:
  1. Turn off the tap.
  2. Select any programme (except for Rinse ◼ Spin ◼ Drain).
  3. Choose Start/Reload. Let the programme run for approximately 40 seconds.
  4. Turn the programme selector to Off. Disconnect the mains plug.
- Clean the filter:
  1. Depending on model:
     - Disconnect the hose from the tap.
     - Clean the filter using a small brush.
  2. Connect the hose and check for leaks.

and/or for Standard and Aqua-Secure models:

- Remove the hose on the rear of the appliance.
- Remove the filter with pliers and clean.

- Disconnect the mains plug.
What to do if ...

Water is leaking out.
- Attach/replace the drainage hose correctly.
- Tighten the screw connection of the supply hose.

No water supply.
Detergent not dispensed.
- \(\text{Start}/\text{Reload not selected?}\)
- Tap not turned on?
- Filter blocked? Clean the filter \(\rightarrow \text{page 10.}\)
- Supply hose kinked or trapped?

Washing machine door cannot be opened.
- Safety function active. Programme stopped? \(\rightarrow \text{page 4.}\)
- Is \text{Rinse Hold} (without final spin) selected? \(\rightarrow \text{page 3, 4.}\)
- Can be opened by emergency release only? \(\rightarrow \text{page 9.}\)

Programme does not start.
- \(\text{Start}/\text{Reload or} \text{Ready in time selected?}\)
- Washing machine door closed?
- Childproof lock active? Deactivate \(\rightarrow \text{page 5.}\)

Detergent solution is not drained.
- Is \text{Rinse Hold} (without final spin) selected? \(\rightarrow \text{page 3, 4.}\)
- Clean the detergent solution pump \(\rightarrow \text{page 10.}\)
- Clean the waste pipe and/or drainage hose.

Water not visible in the drum.
- Not a fault - water below the visible area.

Unsatisfactory spin result. Laundry wet/too damp.
- Not a fault - the unbalanced-load detection system has cancelled the spin cycle because of uneven distribution of the laundry.
- Distribute small and large items of laundry evenly inside the drum.
- \(\text{Red} \text{uced Ironing} \text{selected?} \rightarrow \text{page 5.}\)
- Selected speed too low? \(\rightarrow \text{page 5.}\)

The programme duration changes during the wash cycle.
- Not a fault – the programme sequence is optimised for the particular wash process. This may result in changes to the programme duration in the display field.

Spin cycle performed several times.
- Not a fault - unbalanced load detection system adjusts the imbalance.

Residual water in the compartment for care products.
- Not a fault - the action of the care product is not affected.
- Clean the insert if necessary \(\rightarrow \text{page 9.}\)

Odour formation in the washing machine.
- Run programme \(\text{Turbo}, \text{Cottons 90 °C}\) without laundry. Use standard detergent.

Status display \(\text{ flashes. Foam may be coming out of the detergent drawer.}\)
- Too much detergent used? Mix 1 tablespoon of fabric softener with \(\frac{1}{2}\text{ litre of water and pour into dispenser II (not for outdoor and down-fitted textiles!).}\)
- Reduce the detergent dosage for the next wash cycle.

Intense noise formation, vibrations and "wandering" during the spin cycle.
- Are the appliance feet fixed?
- Secure the appliance feet \(\rightarrow \text{Installation instructions.}\)
- Transportation safety devices removed? Remove the transportation safety devices \(\rightarrow \text{Installation instructions.}\)

Noises during spin and drain cycles.
- Clean detergent-solution pump \(\rightarrow \text{page 10.}\)

Display panel/indicator lamps do not function during operation.
- Power cut?
- Fuses triggered? Reset/change the fuse.
- If the fault occurs repeatedly, call customer services.

Programme sequence longer than usual.
- Not a fault - unbalanced load detection system adjusts imbalance by repeatedly distributing the laundry.
- Not a fault - foam detection system active - adds an additional rinse cycle.

Detergent residues on the laundry.
- Occasionally, phosphate-free detergents contain water-insoluble residues.
- Select the \(\text{Rinse}/\text{Spin cycle or brush out the laundry after washing.}\)

If you cannot correct a fault yourself (switching on/off) or a repair is required:
- Turn the programme selector to \text{Off} and remove the mains plug from the socket.
- Turn off the water supply and call customer services \(\rightarrow \text{Installation instructions.}\)
